INVITATION

Dear Ladies and Gentlemen,

On behalf of the Organizing committee, I have the honour to officially invite you to participate in the Anniversary Scientific Conference which will take place on May 15, 2020, in the mineral spring spa resort Starozagorski bani near Stara Zagora.

During the current year 2020, we are celebrating the 25th anniversary from the establishment of Trakia University – Stara Zagora.

As successor to the long history and traditions inherited from the pre-existing independent Higher Education Schools in Stara Zagora, Yambol and Haskovo, Trakia University continuously develops and consolidates its position and prestige of the educational and scientific institution in the field of agricultural, veterinary, medical, economic, educational and technical sciences, ecology and social activities. For 25 years the University occupied a prominent place among the academic community in the country and abroad.

I am particularly pleased that in this anniversary year Trakia University – Stara Zagora is once again becoming a center of scientific thought, where scientists from Bulgaria and other countries around the world will exchange experiences and information on the latest achievements in their respective fields of science.

We believe that this scientific forum will contribute to the realization of fruitful discussions on different domains and create opportunities to meet new friends and new contacts for future joint projects and initiatives.

Associate Prof. Dobri Yarkov, PhD
Rector of Trakia University
Chairman of the Organizing committee
